Материал, предлагаемый участникам, в своей основе состоит из авторской ПРЕЗЕНТАЦИИ, которая сопровождала наш очный доклад на Международном Симпозиуме РЕЧЬ и ЯЗЫК в Белграде 02 ноября 2019 года. Ссылка на материалы Симпозиума:
http://www.iefpg.org.rs/Conference/2019/S&L2019_PROCEEDINGS.pdf стр. 69 - 99.
Заметим, что

1) в прошедшем 2020-м году нами были обнаружены новые 24-х элементные Системы, еще более укрепляющие доказательный фундамент МЕТАХИМИИ, однако они здесь не приведены, поскольку еще не опубликованы;

2) Здесь, в выводах, мы впервые указываем, что одинаковые системы на всех этажах Универсума позволяют перейти от Антропного Принципа к Антропному Закону.

2 Сегодня, в названии Семинара, мы впервые (в своих работах) употребили понятие **«Антропный Закон»**.

Самый начальный интернет-поиск употребления этого понятия в литературе дал такие результаты.

Русский язык. Поисковая система Google, 11.01.2021: «Антропный принцип» - 70 500 результатов, «Антропный закон» - 7 результатов, из них единственный релевантный и прямой - комментарий некоего «Kosmolog | 15.11.2013» на статью Джеймса Трефила «Теория эволюции» (https://elementy.ru/trefil/21133/Teoriya_evolyutsii)

«Задумывались ли Вы, почему не "антропный закон", или "антропная теория"? Да потому, что принцип не возможно ни доказать, ни опровергнуть! К науке, как вы её понимаете, то есть, к инструменту получения истинных знаний, принципы не имеют никакого отношения. Они - из инструментария метафизики.»

Английский язык. Поисковая система Google, 11.01.2021: «anthropic principle» 689 000 результатов, «anthropic law» – 27 результатов.

Причем, большая часть релевантных сайтов, где встречается словосочетание «anthropic law» именно посвящена обсуждению темы «наука и теология». Например: **«Почему Большой взрыв свидетельствует о том, что Вселенную создал Бог? - Программа 2»** (<https://jashow.org/articles/why-is-the-big-bang-evidence-that-god-created-the-universe-program-2/>).

The discovery of ALATHREN (1993 - 1996), published in 1998

Miloje Rakočević and Đuro Koruga consider two systemic approaches to the theory of language – *Ferdinand de Saussure* and *Gennady Dlyasin* (1). Milan Đorđević included this our study (alathren and alphabet) in the continuum of discoveries that make up the “**New Linguistic Paradigm**” (2)

Following these authors, we consider our study as the new - alphabetic paradigm. But this new paradigm is not only linguistic - this paradigm is universal and synthetic

The Alphabetic System of Society: prolegomena

On the crisis and prolegomons of the upcoming revolution in sociology. Just one example of justifying our Method.

The idea of N. Luhmann directly anticipated, so to speak, the “launching pad” of our work, not only not condemning, but in every way justifying the way we adopted to get out of this crisis. Here we highlighted the main thing in this thought – Niklas Luhmann suggests abandoning the traditions of sociology and turning to resources brought in from outside, for example, systems theory, cybernetics, communication theory and others (Luhmann, N. (1999) *Teoriya obshchestva* (SanFoca'99) [Theory of Society (SanFoca'99)] In the book: *Teoriya obshchestva. Sbornik* [Theory of Society. Collection]. Moscow: «KANON-press-Ts», «Kuchkovo pole », 416 p. (P. 196 – 235) (In Russian), p. 202 – 203).

TRACES OF KNOWLEDGE

The floors of the World, and Science that study them are one and differ, like the "Feet (traces) Lakshmi" in the needlework of Indian women given here.

Everything is built on the basis of unified "patterns", everything is equally perfectly and imperfectly, everything is equally rational and spiritualized. We give an impetus to overcoming the five cracks shown in Slide

No. 3

Original image title: ""Feet (traces) Lakshmi". Women in different ways depict them during the Dipavali festival": INDIYA zhurnal (India Magazine - magazine was published in the Soviet Union by the Embassy of India) No. 3 - 4 (100 - 101), 1989, p. 58

36 Also it is those genetic structures which allow not only to the future live organism to be written down in a kernel of one cage, but to all World to be written down in one Point. Which allow all World to be rolled-up in one Point and again to be unwrapped from this **Supergenetic Point** in the World as a result of **the Big Bang**

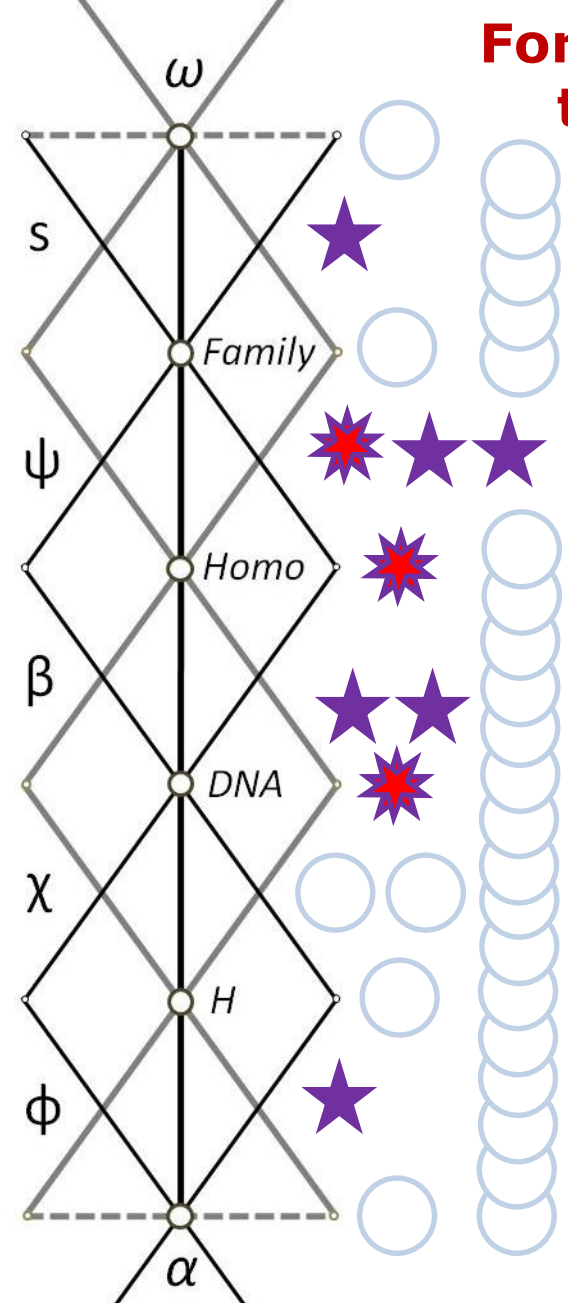

In conclusion, let us cite the thought already formulated earlier in our monograph on Metachemistry (Dlyasin – 2013, p. 197): “The world is created from the alphabet, the world is ... the alphabet. Its structural elements are the alphabets (corporal and incorporeal), on all floors.
Space itself is the Alphabet”

For November 2, 2019 – thirteen alphabetic systems

Breakthrough in new paradigm:
The alphabet provides new synthesis without contradictions

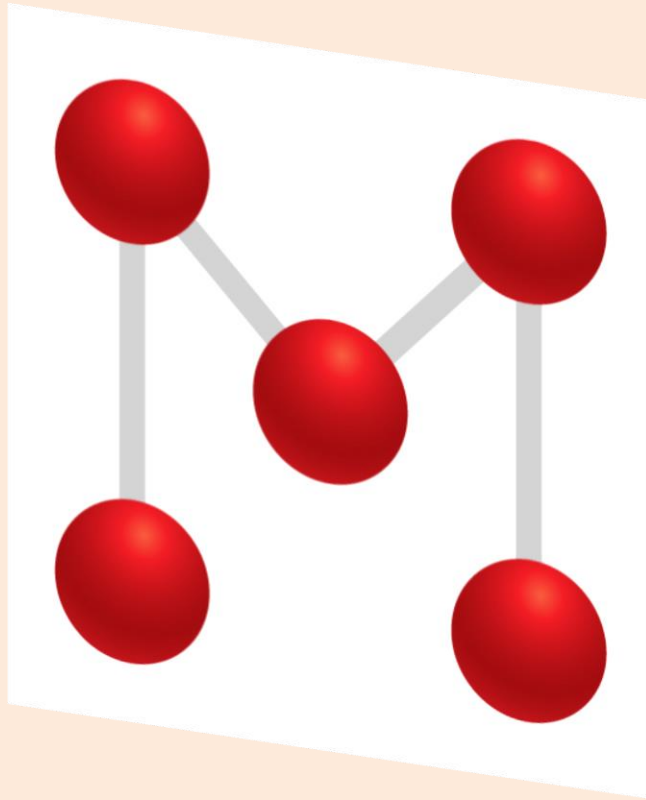

-  Three authoring systems, discovered between 1993 - 2013
-  Ten authoring systems, discovered between 2013 - 2019
-  Now we are waiting for tens and hundreds of new "alphabetic truths"

Теперь, заканчивая презентацию гипотезой о том, что одинаково устроенные генетические системы (каждого этажа Мира) могут быть «вшиты» в одну «суперхромосому» в Главной Точке, из которой в результате Большого Взрыва рождается Вселенная, причем «вшиты» потому, что все устроены ОДИНАКОВО, мы добавим, что это позволяет, как нам представляется, употребить понятие «Антропный Закон».

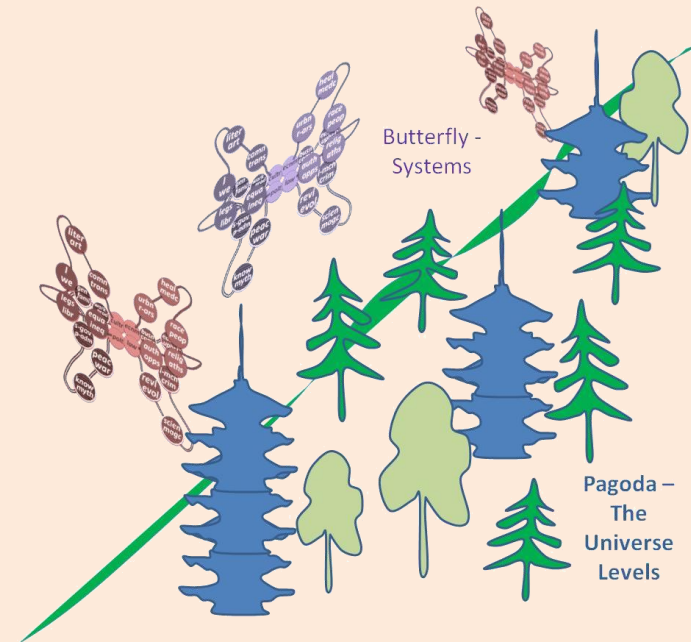

Указывая тем самым на то, что в результате открытия множества одинаковых систем, наши представления о Мире переходят на иной новый уровень, уровень уже не принципа, но закона.

Сказано: в начале было Слово. Сегодня мы доказываем, что, образно говоря, мир на всех его этажах был построен звучанием азбуки, одной и той же азбуки.

Thank you for attention!
